### Belts

# Abrasive Belts / Wide Belts

### **Product Features**

Suitable for all sanding and grinding operations: with unsupported belt, sander pad and contact wheel

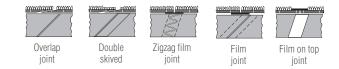

Special designs for customised applications, e.g. for furniture production to enable fast and clean preparation of large surfaces ready for painting

Wide range of sizes

Paper and cloth backed

All products with high tensile strength and optimum streching resistance

### **Joint types**

# Segmented Belts

### **Product Features**

Its strong polyester backing and sharp silicon carbide mineral provide superior performance in materials such as chipboard, MDF, HDF, and OSB.

Its special backing structure provides long life and high-performance.

### Applications
